## NAM ANH GROUP

Transportation fields  
Profession in supplying and installing technology products for bridges, tunnels, railway.

### Bridge bearing

Rubber bearing; Pot bearing; Disk bearing; Spherical bearing; Damping bearing; STU (LUD)...

### Expansion Joint

### Pre-stressed system

### Asphalt concrete additives for anti-wheel rutting

### Cable system

Tie cable, hanger cable, stayed cable, hanger cable

### Waterproofing

Waterproof for tunnel, bridge, civil and industrial housing

### Transportation safety systems

Guardrail, noise barriers, anti-glare system

### Supplying ventilation, dust filter for tunnel

### Railway

Rail, switch, structure steel, accessories... for railway

### Lighting system

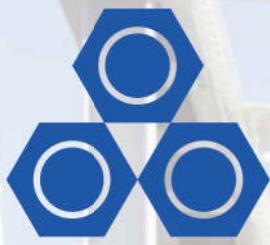

Traffic lighting system, architectural lighting system

### Geo textile, Geo fabric, soil nail

### Supplying special and modern equipment

Inspectional bridge truck, tunnel excavation machine, form traveler, formwork...

### Hydraulic system

## RAILWAY

Nam Anh supplies materials and equipment for the railway industry such as rail, switch, railfish plate, sleeper, elastic accessories, rail keeper, railway nail, ...; along with structural steel, bolts, bearing for railway bridge, ...; Noise reduction and anti-vibration materials for railways.

Rail and accessories for railway

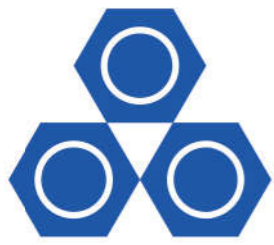

Switch

Accessories of railway

Noise reduction and anti-vibration materials for railways

## TUNNEL

Provide special materials and accessories for tunnel construction.

Waterproof layer for tunnel

Lighting system, Dust collector and Fan ventilation system for tunnel

Special accessories for tunnel construction

**NAM ANH GROUP**  
Technological Orientation To Make Difference

Design, supply and install cable cars  
inclined lifts, zipline system.

## LIST OF PROJECTS

Nam Anh has joined and completed

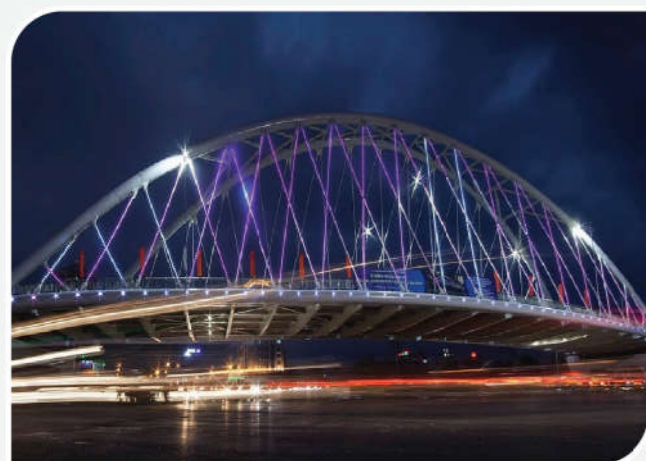

### DONG TRU BRIDGE

Total length: 1240.0m  
Main span length: 500.0m  
Location: Ha Noi City - Completed: 2014  
Category: Supplying tie cable, hanger cable

### RACH CHIEC BRIDGE

Total length: 540.0m  
Main span length: 220.0m  
Location: Ho Chi Minh City - Completed: 2015  
Category: Supplying tie cable, hanger cable

### LE HONG PHONG BRIDGE

Total length: 267.0 m  
Main span length: 99.0m  
Location: Hai Phong City - Completed: 2017  
Category: Supplying and installing hanger cable

### BEN TUONG BRIDGE

Total length: 384.0 m  
Main span length: 188.6 m  
Location: Thai Nguyen City - Under construction  
Category: Supplying tie cable, hanger cable

### HOANG VAN THU BRIDGE

Total length: 1570.0 m  
Main span length: 290 m  
Location: Hai Phong City - Under construction  
Category: Supplying tie cable, hanger cable

### TRA LY BRIDGE

Total length: 740.0m  
Main span length: 256.0m  
Location: Thai Binh province - Completed: 2017  
Category: Supplying and installing stayed cable

### BACH LAM BRIDGE

Total length: 455.0m  
Main span length: 270.0m  
Location: Yen Bai City - Under construction  
Category: Supplying and installing stayed cable

### NGUYEN VAN LINH BRIDGE

Total length: 288.2m  
Main span length: 100m  
Location: Hai Phong City - Under construction  
Category: Supplying and installing hanger cable

### CUA DAI BRIDGE

Total length: 3700m  
Main span length: 1800m  
Location: Quang Ngai Prov - Under construction  
Category: Supplying and installing stayed cable
